

## AGS-MRPC

### *RUGGED SINGLE DISPLAY PORTABLE WORKSTATION*

The AGS-MRPC is the standard in rugged, portable computers. Fitting in between a laptop and a full desktop tower, the AGS-MRPC is the right size and weight to bring more power to your mobile platform.

The standard AGS-MRPC platform with typical figuration has the fastest turn-around of any rugged system. Acme Government Systems integrates and tests 1553, video capture, and other PCI cards. Further customization is possible with military connectors to meet a variety of requirements.
